Strukton present at international tunnel fair WTC 2019 in Naples

01 May 2019

Strukton is participating in the international tunnel fair, the World Tunnelling Congress 2019 in Naples. Strukton will be at booth A4-A5 from 3 to 9 May 2019.

Strukton has taken the initiative from the Working Group 11 (Immersed and Floating Tunnels) of the International Tunnelling and Underground Space Association (ITA) to develop, together with partners, a booth for the WTC that promotes the immersion of tunnels and caissons. At this booth we will be working together with partners who are involved in Working Group 11.

Recently, Strukton transported and immersed 3 tunnel elements for the Marienholm tunnel project in Gothenburg, Sweden. Strukton is currently working on the transport and

sinking of the caissons for the Canakkale 1915 bridge piers
in Turkey.
